

Show rules from NALJA 2010
Rules for 2011 OLBA point shows

7. Bred-and-Owned.

To show in the bred-and-owned show, the female's or bull's tattoo must include the junior exhibitor's herd prefix; and the female's or bull's dam must have been registered to the junior exhibitor at the time the dam was bred to produce the animal. Embryo-transplant (ET) calves are eligible for the bred-and-owned show; however, the donor female must have been registered to the junior exhibitor at the time she was flushed to produce the animal. The family's prefix in the female's or bull's tattoo or family ownership of the dam at breeding does **not** qualify for the bred-and-owned show. No animals from partnership or lease agreement cows qualify. NALJA automatically enters eligible animals from the owned-female show in the bred-and-owned show.

Juniors may sell no more than 50 percent ownership of a bred-and-owned bull and still be eligible to compete with him in the bred-and-owned bull show. The exhibitor must keep full possession of that bull until the regional and national shows conclude. All other bred-and-owned rules apply.

8. Fitting.

To maintain a high degree of confidence in Limousin junior shows, NALJA reserves the right to disqualify any animal for unethical fitting, which shall include the following.

- Any use of paints, hair coloring, conditioners, colored show foam, graphite, colored powders or other substances that may be subject to disqualification. All animals are subject to a "white towel" test from check-in to release. NALJA reserves the right to collect hair samples from any animal at any show.
- The addition of any hair or hairlike substances, including false tail heads and false polls. (NALJA allows false tail switches.)
- The cutting, tearing or gluing of the hide or underneath the hide or removal of tissue in an attempt to alter the animal's shape.
- The injection of any gas, solid or liquid under the hide to alter the animal's conformation.
- Any attempts to disrupt or change the animal's normal dental development.
- Any products, such as steroids or growth stimulants, administered internally or externally to alter the animal's conformation.

9. Substitute Showmen.

All junior exhibitors are required to show their own animals. In the case of sickness or injury after arrival at the show, exhibitors (who must be present at the show) may select another junior exhibitor to show their animals. The NALF director of junior activities and the president of the NALJA Board of Directors must approve substitute showmen before they enter the showing. Exhibitors with more than one animal in a class may have (an)other NALJA member(s) show the additional animal(s) without approval.
